Crossing borders and embracing new horizons, our students along with our faculty members embarked on a transformative journey to Malaysia. The experience enriched their academic learning while immersing them in a vibrant cultural exchange, creating memories and knowledge that will last a lifetime. As part of the Student Exchange Program, our students visited the University of Malaya, Penang Dental College, MAHSA University, and AIMST University, gaining valuable academic and cultural exposure

To be a part of the International Student Mobility Program has been an immensely fulfilling experience. Successfully implemented with a cohort of 12 enthusiastic students, the program provided a valuable platform for global exposure, academic enrichment, and cross-cultural learning. Our students demonstrated remarkable adaptability and curiosity, gaining confidence and a broader perspective that extends beyond the classroom. My sincere appreciation for the dynamic leadership and unwavering support from the Management, Principal and Vice Principal whose guidance ensured the smooth execution of the program. It is deeply gratifying to see my aspiration of expanding horizons for our students become a reality, and I remain thankful to the Almighty for this opportunity. Building on this success, we look forward to expanding future cohorts and strengthening international collaborations and tie-ups in the years ahead.

## TESTIMONIALS

INDIAN DENTAL CONVENTION  
DCI 26  
MOKSHAA

### Testimonial from the Dean - Sree Balaji Dental College and Hospital

It gives me immense pleasure to extend my warm greetings and heartfelt appreciation for Mokshaa, one of the most vibrant and well-organized intercollegiate events hosted by Sri Venkateshwara Dental College. Over the years, Mokshaa has grown into much more than just a cultural and scientific gathering. It has become a platform that truly celebrates talent, innovation, and the spirit of collaboration among students from diverse institutions. The consistency with which this event has been conducted speaks volumes about the dedication, vision, and organizational excellence of the institution. What makes Mokshaa particularly commendable is its ability to strike a perfect balance between academics and extracurricular engagement. The inclusion of scientific paper and poster presentations alongside cultural events provides students with a holistic platform to showcase not only their intellectual capabilities but also their creativity and individuality. I would like to especially appreciate the efforts of the organizing team, faculty, and students of Sri Venkateshwara Dental College for their continued commitment to excellence. It is also heartening to see how Mokshaa brings together young minds in an atmosphere of enthusiasm, learning, and camaraderie. These experiences leave a lasting impact on students and create memories that go far beyond the confines of the classroom.

On behalf of our institution, I extend my best wishes to the entire team of Mokshaa for yet another successful edition.

Thank you, and I wish all the participants a rewarding and memorable experience.

Prof. **Dr. M. S. Kannan**, MDS (Orthodontics) MFDS RCPS (Glasg)  
Dean, Sree Balaji Dental College & Hospital, Chennai

**M**OKSHAA it is!!! The first cultural event I attended during my UG!! Moksha brought back my school cultural days where I was so happy and eager for each and every event I participated in. Moksha was the place where I bonded with other college dentists like me... it was more than a competition for me. Moksha is the place where my interests developed in scientific, literary and sports events! Although I couldn't get prizes due to heavy competition, it made me compete even more for next year's moksha. But moksha's memories will always be forever.

I sincerely congratulate and thank the organizing team of Sri Venkateshwara Dental College for bringing us together once again for this wonderful "Dental Family Reunion."

- **Krishnakumar, E.G.S.**  
Student, Indira Gandhi Institute of Dental Science

I'm happy to see Mokshaa, organized by Sri Venkateshwara Dental College, maintaining the same energy and consistency over the years. I had the opportunity to participate during my UG days representing Annamalai University in both sports and scientific events, and I won the badminton event consecutively from 2016 to 2019. Now, after completing my MDS and working as an Assistant Professor at Sree Balaji Dental College, it's great to see the excellent hospitality and the way the Mokshaa organizing team manages events across all three departments—sports, cultural, and scientific. Wishing Mokshaa continued success.
